Summary

Frontend Developer with 1.3 years of hands-on experience in building responsive and scalable web and mobile applications using Vue.js and Flutter. Skilled in UI/UX implementation, API integration, state management, and creating modern, performance-optimized interfaces. Strong focus on clean architecture, reusable components, and delivering smooth, user-friendly experiences across platforms.

Skills

Programming & Querying: HTML, CSS, Javascript, React.js, Vue.js, Java, SpringBoot, SQL, Flutter.

Development Tools: VS Code, GitHub, Postman.

Education

B.E. Electronic and Communication Engineering

Graduated: 2024

Karpagam College of Engineering

CGPA: 8.4 / 10

Experience

Frontend Developer

Nov 2024 – Present

Mave Pizon Technology

Tools Used: Vue.js, JavaScript, Dart, HTML, CSS, Bootstrap, REST APIs, Git

- Built responsive web for a WHO learning platform using Vue.js and ensuring a consistent user experience across devices.
- Created reusable UI components and followed clean architecture practices to improve maintainability and development efficiency.
- Integrated REST APIs to display dynamic data such as courses, feedback and user profiles..
- Worked closely with backend, design, and QA teams to deliver features, fix issues, and optimize performance.
- Used Git and agile workflows, contributing to code reviews and sprint-based development.

Projects

WHO Learning & Engagement Platform | *Vue.js, JavaScript, HTML, CSS, REST APIs*

Nov 2024 – Present

- Developed responsive and scalable web interfaces for a World Health Organization (WHO) learning platform, ensuring consistent UX across devices and screen sizes.
- Built reusable Vue.js components and followed clean architecture principles to improve maintainability and reduce development effort across modules.
- Integrated REST APIs to display dynamic data such as courses, feedback, attendance, and user profiles with smooth state handling.
- Collaborated with backend developers, designers, and QA teams to implement features, fix bugs, and optimize performance following agile practices.

Employee Management Mobile Application | *Flutter, Dart, REST APIs*

June 2025 – Dec 2025

- Developed a cross-platform Employee Management app using Flutter to manage employee creation, updates, search, and role-based access.
- Implemented modern UI/UX with reusable widgets, animations, and responsive layouts to enhance user experience.
- Integrated REST APIs for employee CRUD operations, attendance tracking, and profile management.
- Applied state management techniques to handle authentication, form validation, and complex user interactions efficiently.

Awards & Certifications

- **Java Full Stack Developer Certificate – Hexjex Technology (2024):** Completed hands-on training in Java, Spring Boot, REST APIs, HTML, CSS, JavaScript, and database integration.
- **SkillRack Certifications – Java & SQL (2024):** Demonstrated proficiency through practical coding challenges and problem-solving exercises in core Java and SQL.
